

PMAC | PRINCE MAHIDOL
AWARD CONFERENCE **2019**

PARALLEL SESSION 3.1

**THE PRISONER'S DILEMMA OR THE DILEMMA'S PRISONERS? CHALLENGES AT
THE FRONTIER OF NCD CONTROL**

| BACKGROUND

The tremendous cost of NCDs is obvious to even casual observers, but it is an as-yet unsolved challenge to make this threat sufficiently pressing to inspire action. Many relatively simple measures could reduce risk factors and open the door to more complex changes to address others. One important reason for this inaction is the wide variety of professional, commercial, governmental, and public interests that would have to be engaged to produce a solution. Designing such solutions, facilitating cooperation, establishing responsibilities, and enforcing responsibilities requires both ways of thinking and channels of action that do not exist in most governments and societies.

| OBJECTIVES

The complexity needed to understand NCD causes and risk factors is at odds with typical public health approaches, which usually emphasize narrow interventions. The first objective of the session is to highlight this problem by assembling speakers with different lenses on NCDs and asking them to discuss causes, responses, and accountabilities. The second objective is to sketch possible solutions by discussing ways that cooperation and collaboration may be improved. Speakers will be selected to provide perspectives from different sectors: government, medicine and public health, advocacy organizations, and the private sector. The discussion will draw out the challenges each speaker has faced in coordinating and engaging with other sectors.

PRINCE MAHIDOL
AWARD CONFERENCE

2019

Panelist / Panelist

Tamu Davidson

Director of NCDs and Injuries Prevention

MoH, Government of Jamaica
Jamaica
